

ANAS JIHAD AL HOMSI

SOFTWARE ENGINEER | FULL-STACK DEVELOPER

Damascus, Syria | mhab36817@gmail.com | +963 959 975 058 | www.linkedin.com/in/anas92876

SUMMARY

Software Engineer and Full-Stack Developer building web applications, SaaS platforms, dashboards, IoT systems, and automation solutions with React, Next.js, Node.js, Express.js, MongoDB, SQL, Supabase, and ESP8266/Arduino. Focused on responsive UI/UX, secure APIs, authentication, real-time features, and deployment. Currently a Developer at Robotric while delivering independent client products and teaching robotics. Earned 2nd place worldwide in an international robotics competition.

PROFESSIONAL EXPERIENCE

Developer, Robotric (Remote)

2026 - Present

- Develop and maintain web applications across frontend and backend: interfaces, APIs, databases, and system integrations.
- Improve existing codebases by fixing issues and shipping new features while collaborating remotely with the team.

Software Engineer, Freelance

2020 - Present

- Build full-stack web apps, SaaS platforms, and business management dashboards with React, Next.js, Node.js, and Express.js.
- Develop REST APIs, JWT authentication, role-based authorization, and data models using MongoDB, SQL, Supabase, and Neon.
- Integrate WebSockets, third-party APIs, and n8n automations; deploy on Vercel, Netlify, Render, and Railway.

Robotics & Programming Trainer, MAPS Organization

Sep 2024 - Present

- Teach Arduino, ESP8266, sensors, and robot programming in hands-on workshops, helping students debug hardware and software.
- Mentor competition teams on technical planning, implementation, and real-world problem solving.

Software Lead, Brilliant Blue Robotics Competition

Aug 2023 - Dec 2023

- Built the robot's control dashboard with authentication and data visualization, integrating live sensor streams with the hardware team.
- Contributed to the team achieving 2nd Place Worldwide in the competition.

PROJECTS

Nazemly - Clinic Management SaaS

2026

React, Next.js, Node.js, MongoDB, REST APIs

- Clinic platform for patient records, appointments, invoices, reports, and owner dashboards, built for the Syrian market.
- Role-based access for doctors, receptionists, and owners; dental odontogram chart and WhatsApp appointment reminders.

GymOps Hub - Gym Management SaaS

2026

React, Node.js, MongoDB, REST APIs

- Role-based dashboards for admins, gym owners, receptionists, trainers, and members with full Arabic RTL support.
- Memberships, payments, partial payments, outstanding balances, and expense tracking.

Hydro-Quest - IoT Submarine Monitoring System

Jan 2024 - Present

React, Node.js, MongoDB, WebSockets, ESP8266, GPS, DS18B20 & TDS sensors

- Real-time dashboard streaming GPS location, water temperature, and water quality data over WebSockets.
- Programmed ESP8266 firmware to collect and transmit sensor data; added authentication and role-based access.

Robotric - Web Platform & Company Dashboard

2026

Next.js, React, TypeScript, Tailwind CSS, GSAP, Node.js

- Built the company website and dashboard interfaces with responsive layouts and smooth scroll-based animations.

ZAYRO - E-commerce Platform

2025 - Present

React, Node.js, Express.js, MongoDB

- Clothing store with user accounts, shopping cart, order management, and an admin dashboard for products and orders.

Jabal Bloudan - QR Digital Menu & Dashboard

2026

Next.js, React, Node.js, MongoDB

- Mobile-first QR menu for a restaurant with a management dashboard for menu content and business information.

Business & Agency Websites

2025 - 2026

Next.js, React, Tailwind CSS, GSAP

- **Advadev & Effect Media:** agency websites with animated scrolling experiences and Arabic RTL support.
- **Hamsho:** media-heavy industrial company website with a video hero, optimized for frontend performance.
- **Khawam:** product catalog with thousands of tools and equipment items organized into categories.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, GSAP	Backend: Node.js, Express.js, REST APIs, WebSockets, JWT, Auth & Authorization
Databases: MongoDB, Mongoose, SQL, Supabase, Neon	Mobile: React Native, Expo
IoT & Embedded: Arduino, ESP8266, Sensor Integration, GPS, Real-time Monitoring	Automation: n8n, API Integrations, Webhooks
Tools: Git, GitHub, VS Code, Postman, Claude Code, Codex	Deployment: Vercel, Netlify, Render, Railway

EDUCATION

Undergraduate Medical Student, Al-Sham Private University

2025 - Present

Completed the first year of medical studies, building a scientific and analytical foundation alongside continued software engineering work.

ADDITIONAL INFORMATION

- **Languages:** Arabic (Native), English (Fluent), French (Basic)
- **Certifications:** Web Development (React & Node.js), Microcontrollers & Embedded Systems, Robotics Competition Certifications, Automation Tools & API Integrations
- **Awards/Activities:** 2nd Place Worldwide - Brilliant Blue Submarine Robotics Competition (2023); robotics and programming instructor at MAPS Organization
